

## Hays Trinity Groundwater Conservation District: New/Updated Website -- Request for Proposals

The Hays Trinity Groundwater Conservation District is looking for website designers to bid on the creation of a new version of the District's website.

<http://haysgroundwater.com/>

The existing web site is ageing out and could be working a lot harder for staff and constituents alike.

### Requirements:

- Site will have a bold, beautiful, and simple look
- It will be armored with the most current hack-proof protection
- It will be optimized for tablets and smartphones
- It will be compliant with 2020 W3C Accessibility Standards
- All information on the old site will be transferred to the new
- Site will maintain its interactivity
- District staff shall have control over the addition of future website content
- Sealed proposals shall include timelines, graphics proposals, and bids
- Bidders must include portfolio and references
- Proposals are due April 15, 2021
- Proposals will be reviewed and results announced May 1, 2021
- The new website must be complete, installed, and ready to use by August 1, 2021

The District has developed a detailed appendix to assist in proposal development – available on request.

Please respond to Charlie Flatten, [GM@haysgroundwater.com](mailto:GM@haysgroundwater.com)

Thank you,

Charlie Flatten, General Manager
