Actionable Groundwater Bills

A HB 16 Harris, Cody(R)

Relating to the oversight and financing of certain water infrastructure matters under the jurisdiction of the Texas Water Development Board.

Remarks: Key Provisions: Expanded Use of Funds: Financial assistance can now be directed toward potable water reuse projects, reservoir development, and infrastructure for transporting or integrating water into supply systems broadening the scope of eligible projects.

Water Access Assessment: Establishes a recurring water access assessment, to be conducted at least once every 10 years. This system will identify utilities at risk of failure based on key indicators such as availability, quality, affordability, and system capacity.

Reporting Requirements: The TWDB will be required to submit a report to each Legislature, detailing how funds are allocated and highlighting progress on water projects, especially those targeting at-risk or failing utilities.

Public Information Tool: Requires the creation of a public-facing tool to provide real-time updates on the status of water supply projects and the condition of distressed utilities.

Transfers: Authorizes transfers from Texas Water Fund to Agricultural Water Conservation, Economically Distressed Areas Program, and water access assessment funds.

A HB 2078

Gerdes, Stan(R)

Relating to the joint planning of desired future conditions in groundwater management areas.

Remarks: Section 1. Would amend sec. 36.1071(e), water code, by adding a requirement that districts include in their management plans an explanation in plain language of how the district is monitoring and tracking the DFCs AND how the district has performed in

achieving the DFC over the preceding 5-year planning period.

Section 2. Would amend sec. 36.108, water code, by adding language that requires district representatives to review management plans of each district at least once every five years including how each district is achieving its DFC.

Also requires an explanation in plain language of why a DFC adopted for an aquifer was changed from the one adopted for the aquifer of the preceding 5-year planning period.

Also requires interim values for the adopted DFCs for time periods not to exceed 10 years solely to assist the district in monitoring interim progress.

DeAyala, Emilio(R)

Relating to civil actions related to groundwater conservation districts.

Remarks: Would amend sec 36.066, water code, by amending subsections (a), (g), and (h), and add subsection (g-1).

Bill would allow a district to recover reasonable and necessary attorney's fees and costs if it prevails in a groundless suit brought in bad faith, and allow a groundwater rights owner to recover reasonable and necessary attorney's fees and costs if a district is found to have intentionally violated their rights. Court would decide who is awarded the attorney's fees.

Bill also provides that a district board member is immune from personal liability for official votes and actions.

 HB 3609

Barry, Jeffrey (F)(R)

Relating to management plans adopted by groundwater conservation districts.

Remarks: Section 1. Would amend sec. 36.1071, water code, by amending subsection (b) clarifying that a district must develop its management plan using the most recently approved DFC and MAG, corresponding to the most recently approved DFC.

Adds (b-1), that requires a district to amend its management plan within 2 years of adopting a DFC.

Adds (b-2), that clarifies that if a DFC is challenged or found to be unreasonable, the EA will consider a management plan to be administratively complete if the district includes the most recently approved DFC, the MAG corresponding to that DFC, and a statement of the status of the petition.

Section 2. Amends sec 36.1072(b), water code, by specifying that a management plan is considered administratively complete for Executive Administrator approval if it meets the requirements outlined in the new Section 36.1071(b-2) when a DFC challenge is pending.

Relating to groundwater requirements for municipal and county approval of subdivision plats and the powers and duties of groundwater conservation districts.

Remarks: Section 1. Would amend section 212.0101, Local Government Code, by amending Subsection (a) and adding Subsections (d) and (e). subsection (a) is amended by requiring GACs to include estimates of drawdown associated with the subdivision relative to the MAG and "modeled sustainable groundwater". GAC must also include cumulative impacts of any existing or planned wells and projected future pumping from area wells. New subsection (d) requires the GAC be sent to the GCD. New subsection (e) allows a GCD to contest the plat application if they provide information to the municipality challenging the findings of the GAC.

Section 2. Would amend section 232.0032, Local Government Code, by amending Subsection (a) and adding Subsections (d) and (e). subsection (a) is amended by requiring GACs to include estimates of drawdown associated with the subdivision relative to the MAG and "modeled sustainable groundwater". GAC must also include cumulative impacts of any existing or planned wells and projected future pumping from area wells. New subsection (d) requires the GAC be sent to the GCD. New subsection (e) allows a GCD to contest the plat application if they provide information to the county challenging the findings of the GAC.

Section 3. Would amend section 36.001, water code, by adding definitions of "modeled sustained groundwater" and "TERS"

Section 4. Would amend section 36.108(d), water code, by adding "modeled sustainable groundwater" to the hydrological conditions of the nine factors. would also add an analysis "of any indirect economic value reasonably expected to be derived from the preservation of GW resources through sustainable management practices" to socioeconomic impacts cons

Section 5. Would amend section 36.109, water code, by allowing GCDs to coordinate with any entity to collect information on groundwater/surface water interactions for the purposes of planning.

Section 6. Would amend section 36.1132(b), water code, by requiring districts to consider modeled sustainable groundwater when considering a permit

Blanco, Cesar(D)

Relating to management plans adopted by groundwater conservation districts.

Remarks: Section 1. Would amend sec 36.1071, by amending subsection (b) requiring districts to include the most recently approved DFC and MAG (corresponding to the most recent DFC) in a management plan.

Adds subsection (b-1) requiring districts to amend their management plans within two years of adopting a new DFC.

Adds subsection (b-2) outlining that if a petition is filed challenging the reasonableness of a DFC, the management plan is considered administratively complete if the district includes specific elements.

Adds subsection (b-3) defining the duration of applicability for subsection (b-2) until a final order is issued or a new DFC is adopted.

Section 2. Amends sec 36.1072(b), by specifying that a management plan is considered administratively complete for Executive Administrator approval if it meets the requirements outlined in the new Section 36.1071(b-2) when a DFC challenge is pending.
